ABOUT ME

Dedicated and results-driven Software Engineer with four years of hands-on experience in designing, developing, and maintaining cutting-edge software solutions. Adept at leveraging a robust technical skill set to tackle complex challenges and deliver high-quality, scalable software applications. Proven track record of collaborating effectively with cross-functional teams to drive project success. Seeking a challenging role to contribute my expertise in software development and continue pushing the boundaries of innovation

EDUCATION

B.E in Computer Science
Chitkara University
2013 - 2017

Information Technology Solutions
Humber College
2018 - 2019

SKILLS

- React
- Redux
- Front-end testing
- JavaScript(ES6+)
- SSR
- Next.js
- Tailwind CSS
- Ruby on Rails
- GraphQL
- Node.js
- Git
- Relational and Non-Relational Databases

Partial Load Registry Professor

September 2022 - Present, Humber College

Ontario Partial Load Registry Professor, excelling in Mobile and Web development courses. Known for fostering inclusive learning, innovative teaching, and achieving positive student outcomes while upholding high academic standards.

Software Engineer

January 2021 - Present, Influitive Corporation

Contributed to the front-end rewrite as a team member, enhancing and reviewing codebases. Collaborated with CSMs to meet customer needs and conducted systems analysis to recommend operational improvements.

Software Engineer

October 2019 - December 2020, Performance Auto Group

As a key team member of the Engineering team, I contributed across all phases—requirements gathering, design, development, coding, testing, and deployment. Introduced agile practices, boosting team efficiency. Successfully migrated various projects from spreadsheet to dynamic web-based solutions.
